## PROFESSIONAL SUMMARY

Software Engineer Intern with hands-on experience developing and improving production web applications across CRM, analytics, and business workflow platforms. Full-stack developer with strong practical experience in the MERN stack (MongoDB, Express.js, React, Node.js), complemented by professional experience with React, TypeScript, Java, Spring Boot, REST APIs, SQL, and PostgreSQL. Experienced in developing reusable interfaces, integrating backend services, implementing authentication and role-based access control, building dashboards and reporting features, and delivering data-driven business workflows. Seeking an Associate Software Engineer role where I can contribute across the application stack and continue developing as a full-stack software engineer.

## PROFESSIONAL EXPERIENCE

**Software Engineer Intern — TS Technologies, Colombo** April 2026 – Present

- Contribute to production CRM and analytics applications using **React, TypeScript, Spring Boot, REST APIs, and modern component-based development practices**.
- Develop and maintain CRM modules covering **sales workflows, customer management, campaigns, user management, permissions, activities, payments, and reporting**.
- Redesigned and rebuilt analytics interfaces with reusable components, dashboards, filters, charts, and data-driven views for **branch, regional, and sales analytics**.
- Integrate frontend applications with backend services and REST APIs, collaborating with backend engineers to deliver complete business workflows and troubleshoot integration issues.
- Implement permission-aware interfaces and **role-based access control (RBAC)** to control feature and dashboard access according to user roles.

## PROJECTS

**Footfall Analytics Dashboard — TS Technologies** React · TypeScript · Vite · MQTT · Tailwind · MUI

- Rebuilt a legacy production platform for monitoring branch, regional and sales footfall, with role-based dashboards and self-service reporting.
- Integrated real-time data (MQTT) and backend services into interactive charts, filters and analytics views.

**CRM Platform — TS Technologies** React · TypeScript · Spring Boot · Tailwind · REST

- Developed API-integrated front-end features for customer, sales, campaign and payment workflows across multiple user roles.

**Smart Waste Management System** Java · Spring Boot · React · PostgreSQL

- Built an IoT-based platform for bin monitoring, fill-level tracking, collection management and route optimisation, with a React dashboard on Spring Boot services and PostgreSQL.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Java, Python, SQL
**Frontend:** React, Next.js, HTML5, CSS3, Tailwind CSS, MUI, shadcn/ui, Bootstrap, Vite
**Backend:** Node.js, Express.js, Spring Boot, Spring Security, REST APIs, JWT, RBAC
**Databases:** MongoDB, PostgreSQL, MySQL, SQLite
**Cloud & Tools:** AWS, Docker, Linux, Git, GitHub Actions, Vercel, Postman, Figma, Jira, Agile/Scrum

## EDUCATION

**BSc (Hons) in Software Engineering — Sri Lanka Institute of Information Technology (SLIIT)** *Expected July 2027*
**GPA:** 3.83 / 4.00 · **Dean's List:** 2023, 2024, 2025

## CERTIFICATIONS

AWS Cloud Practitioner Essentials, AWS Technical Essentials, AWS Lambda Foundations (Amazon Web Services, Jan 2026) · Docker Training Course for the Absolute Beginner (KodeKloud) · Python Programming (University of Moratuwa, Jan 2026) · Linux (Alison, Jan 2026)
